

Stealing - AI Research Pioneer Website

GOAL: Make Research more Begineer Friendly

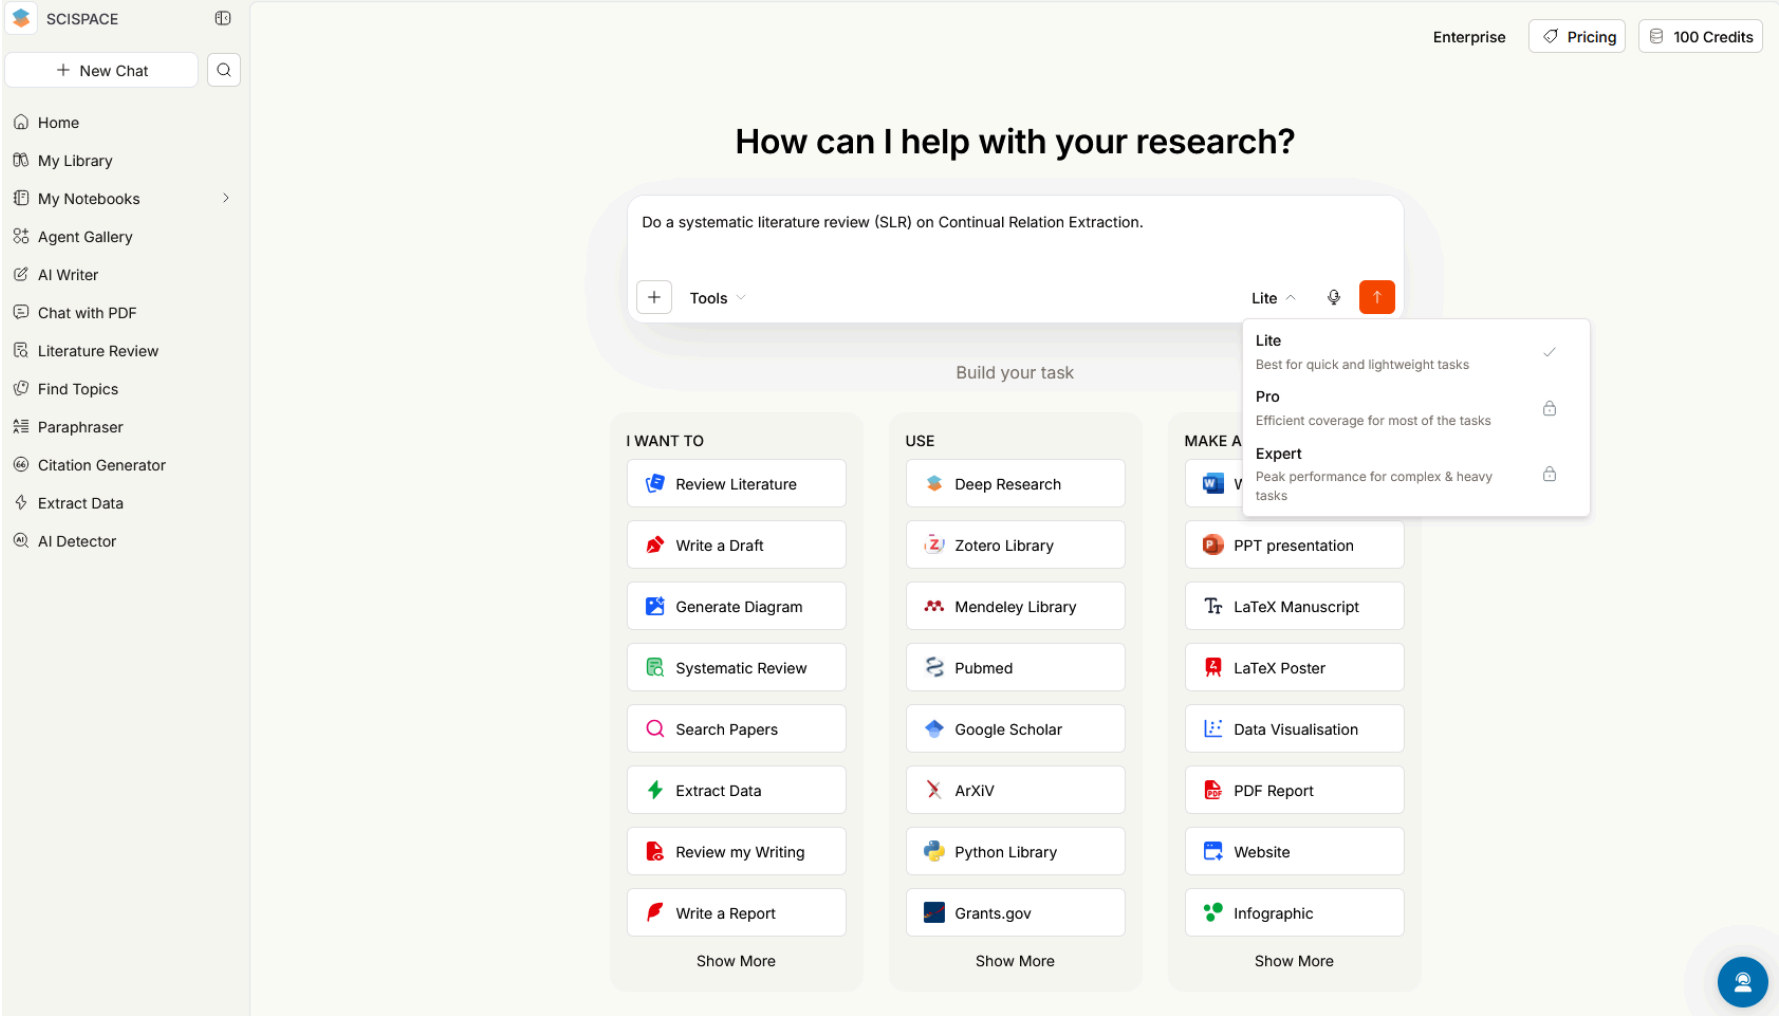

Landing Page

Scispace Market Study (Team work) - Human Centric

Approach - Guide Human through Research (HOTL) with Live Context Preview (High Transparency) **Incredible User Friendly**

Scispace - (Human-on-the-Loop (HOTL): human monitor each step)

1st - Predefine Prompt when Click -> *BEST Begineer Friendly UI/UX (Seemless Interaction)* (ALL Notible Feature Preview at first sight)

2nd - Guide User Straight always with Research Question

3rd - Enter -> Good UIUX -> Preview what the RAgent are doing
e.g. Review by PRISMA-compliant analysis

4th - Edit Screening Criteria:

- Exclusion Criteria - Propose 2 Exclusion Criteria
- Inclusion Criteria - Propose 4 Inclusion Criteria as recommendation

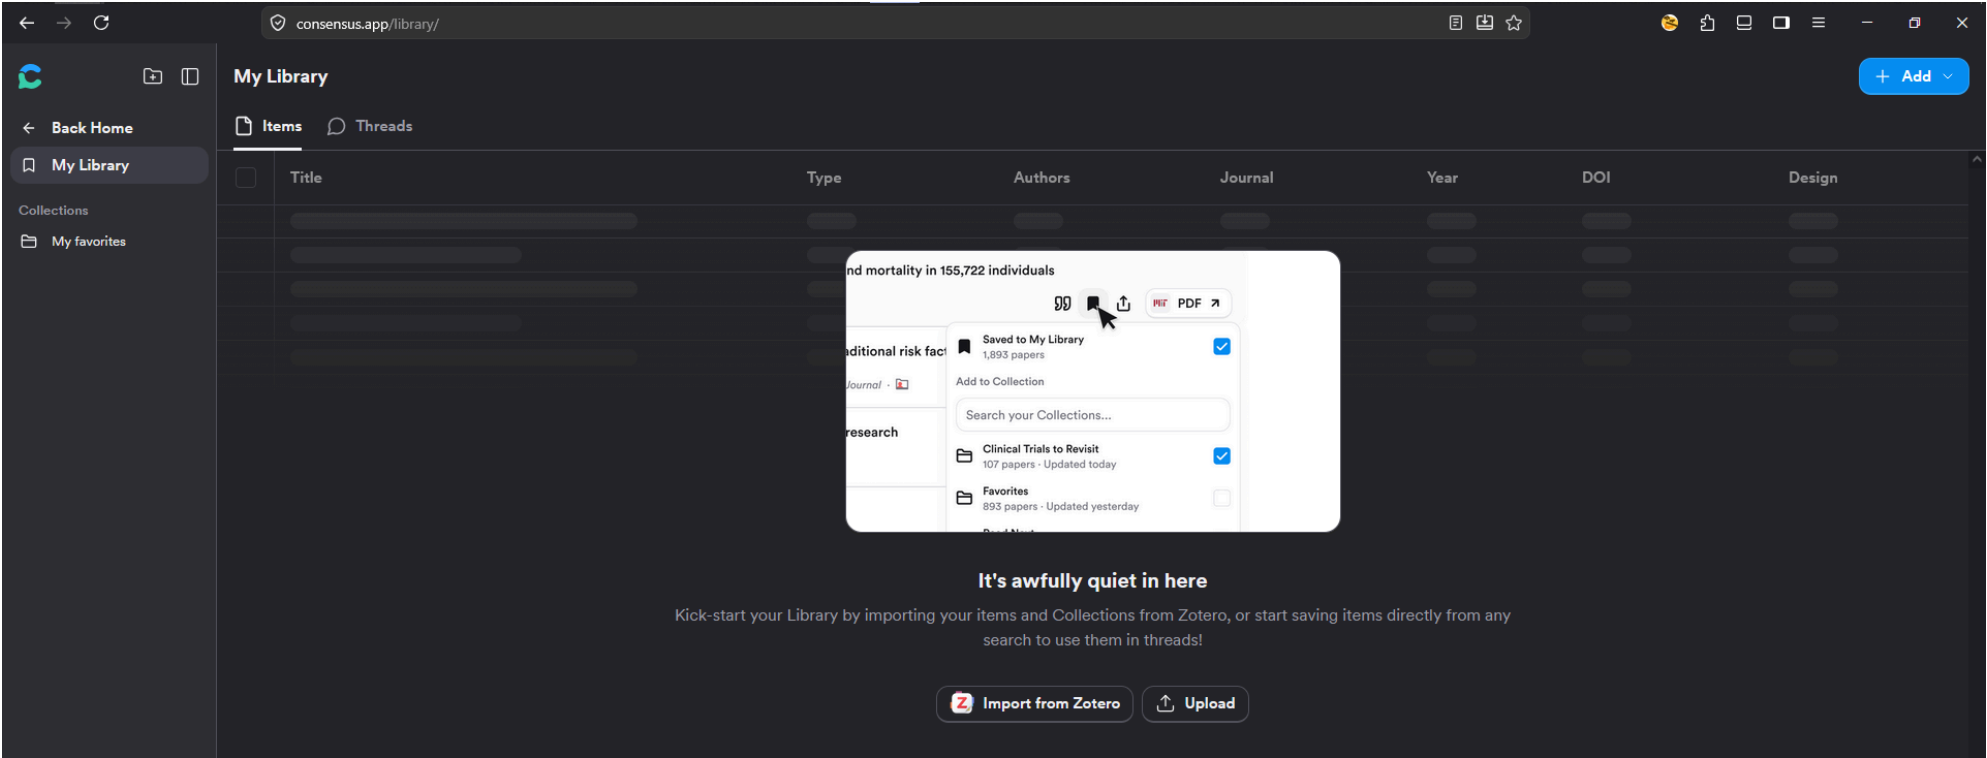

Papers will be included if they match any of the following inclusion criteria. Screening criteria will be used for both abstract and full text screening.

●

- Specify Paper Coverage
- Databases and Search Term (keyword) and Engine
- Specify Period of Publication (e.g. Any Year, Past 2 Years)

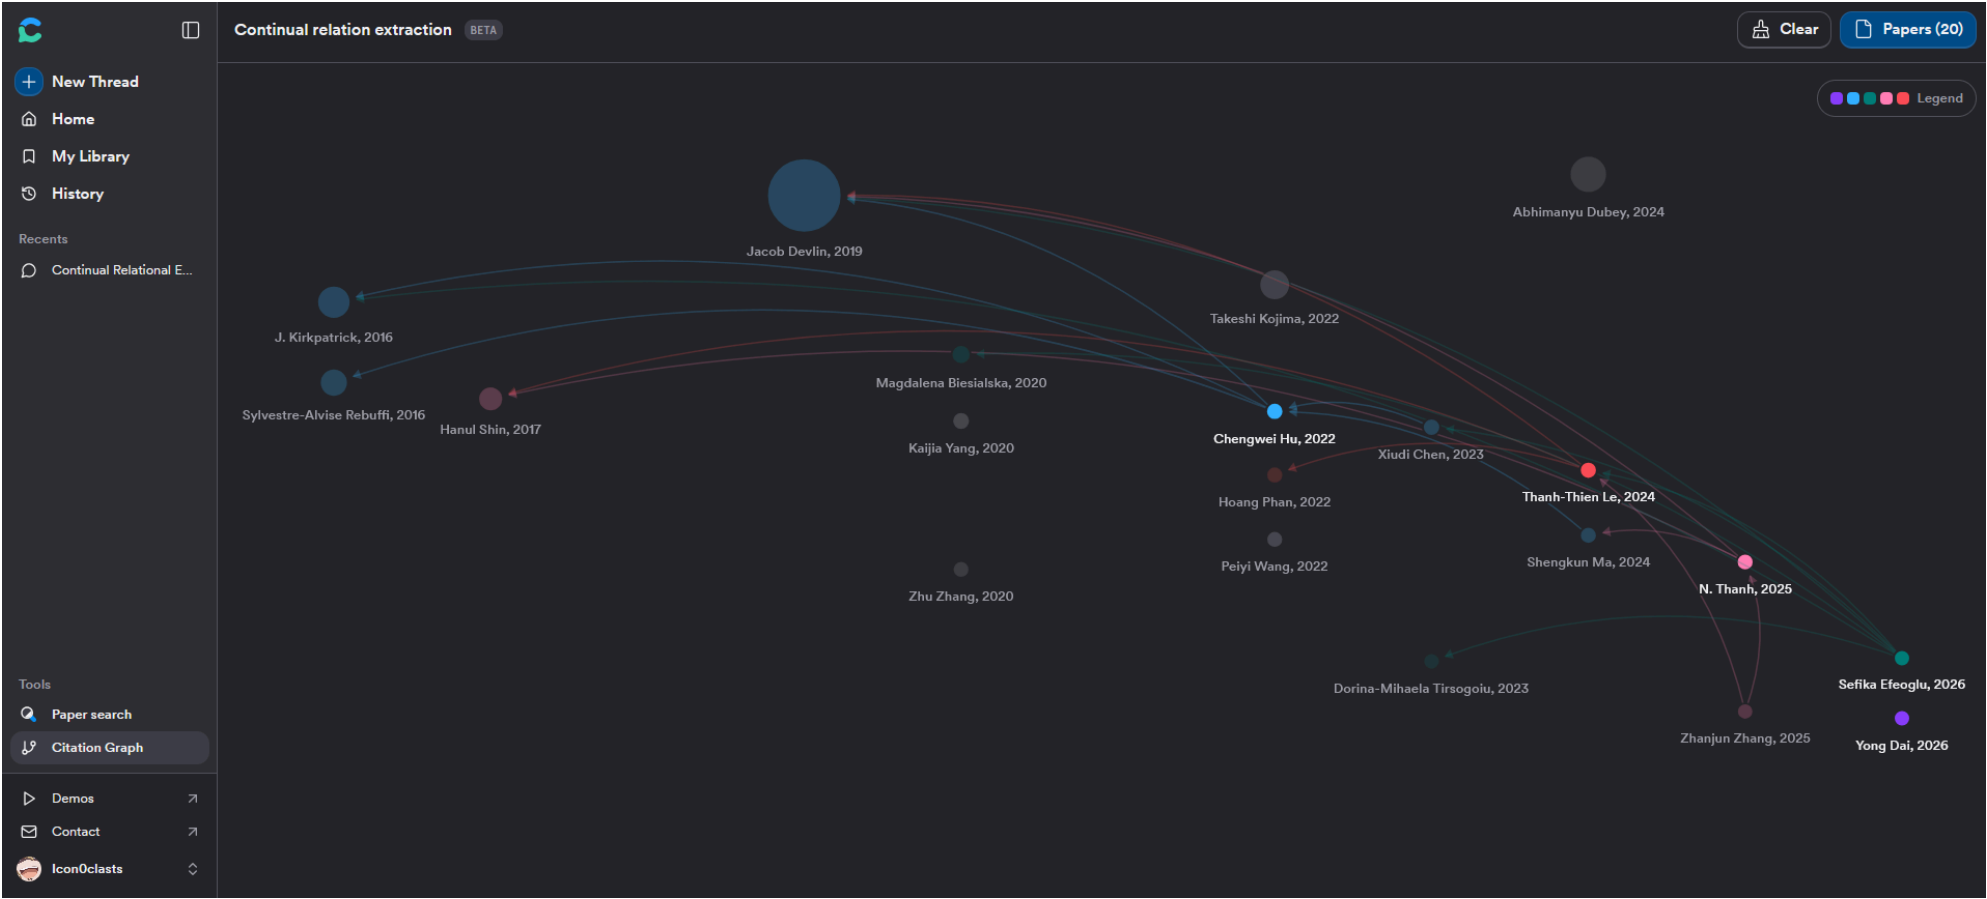

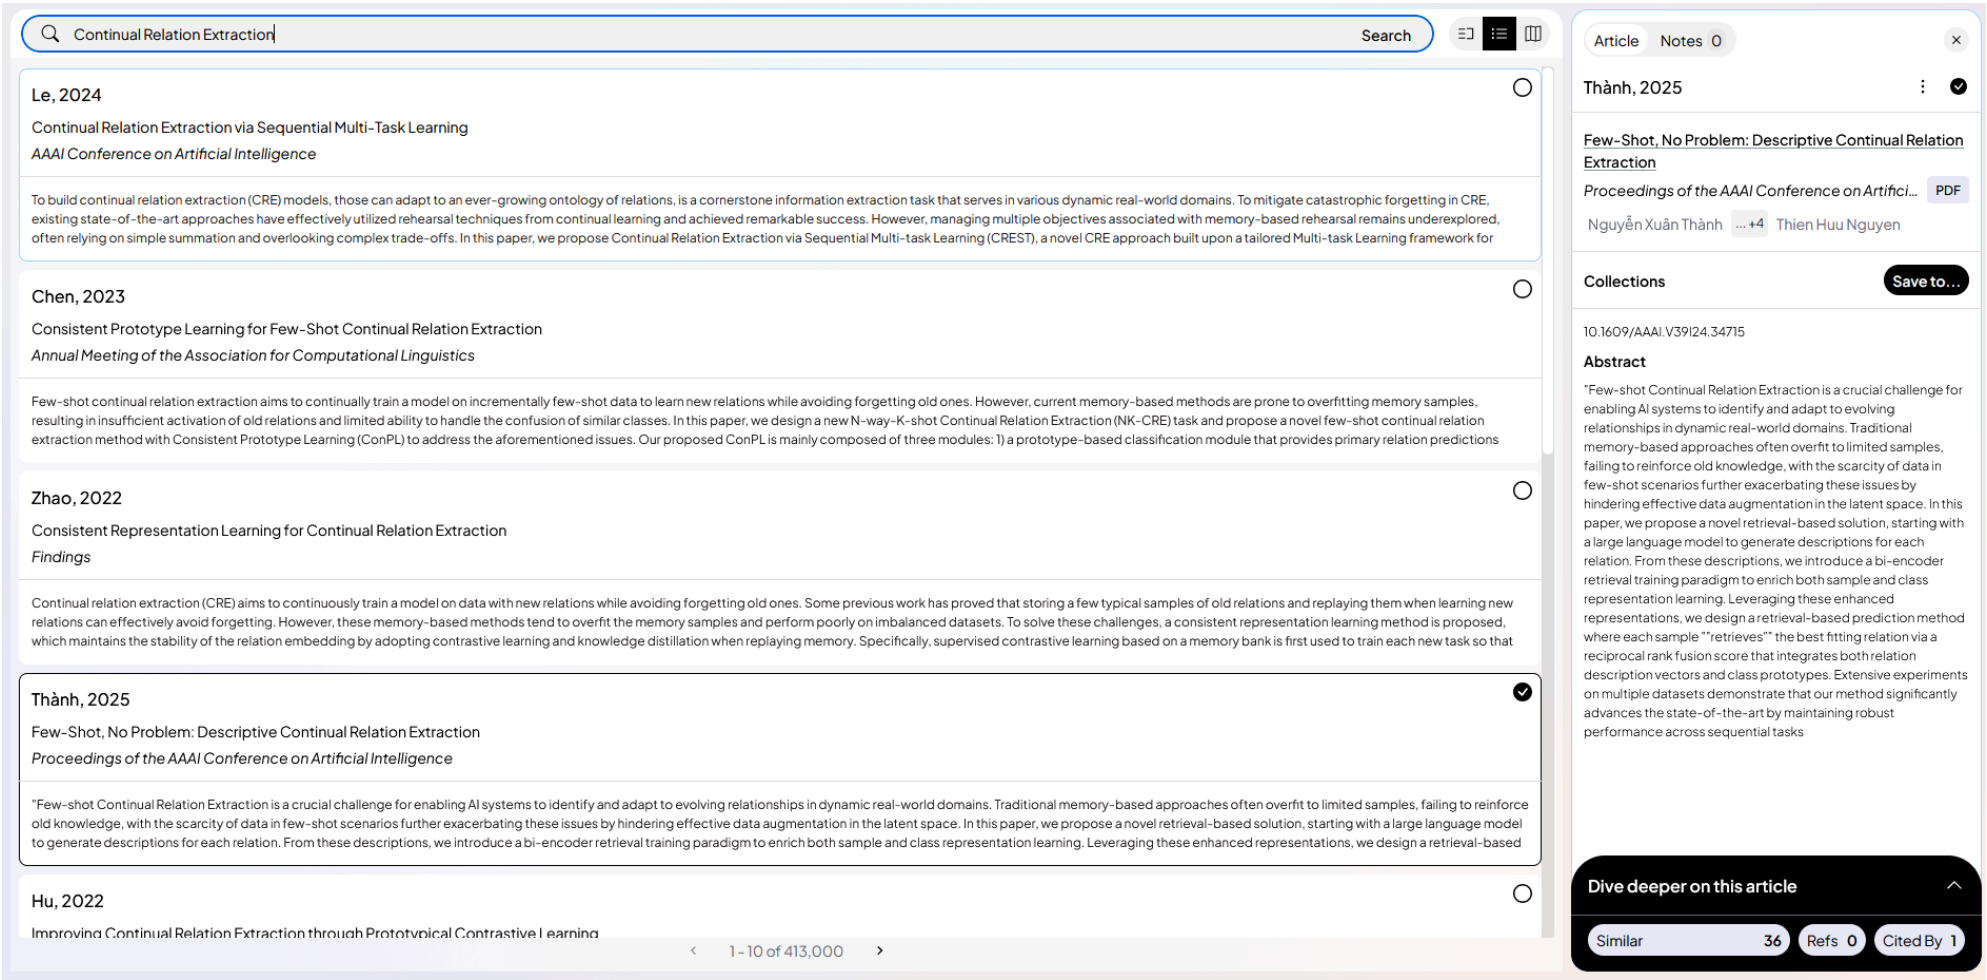

⊗ Taking action

Consensus - Library for Paper Comparison

Search - Paper Relationship Visualization by Graph - Priority LOW

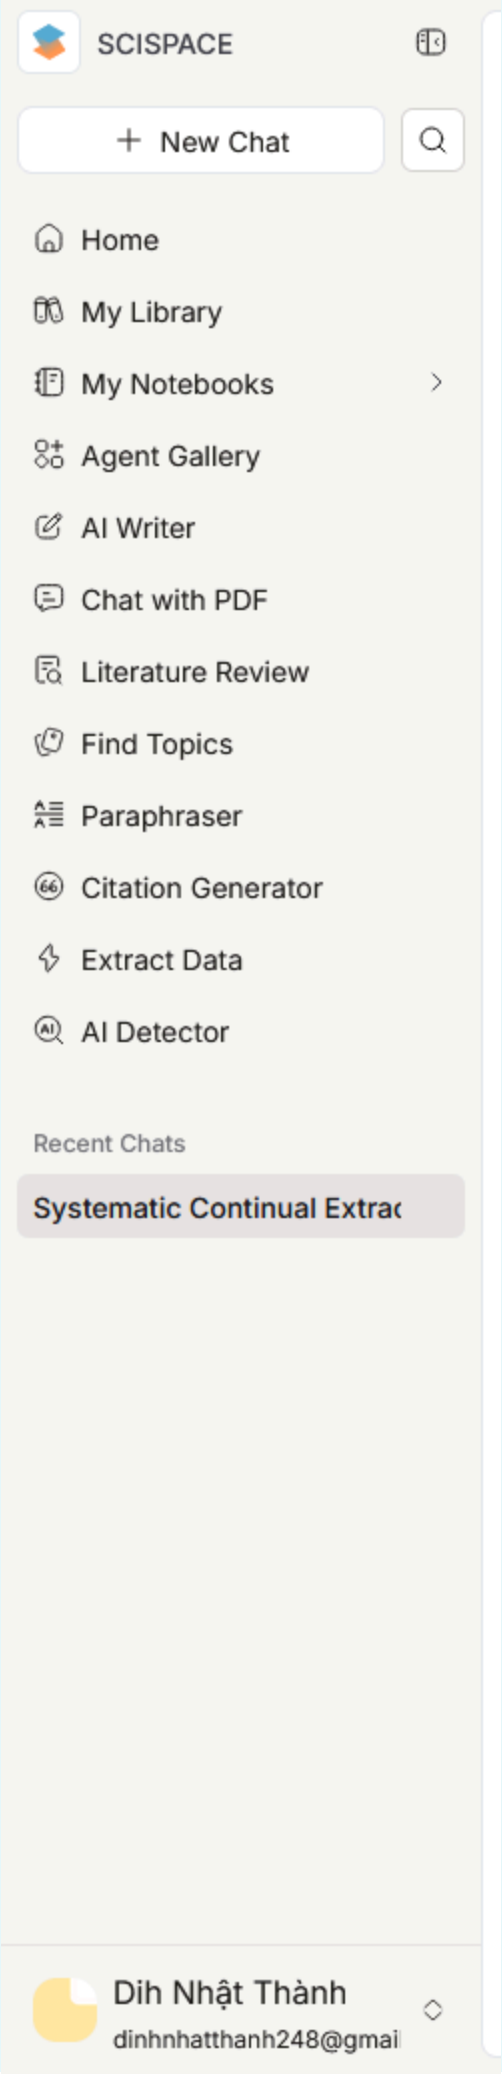

Track Paper Source Better

Sidebar

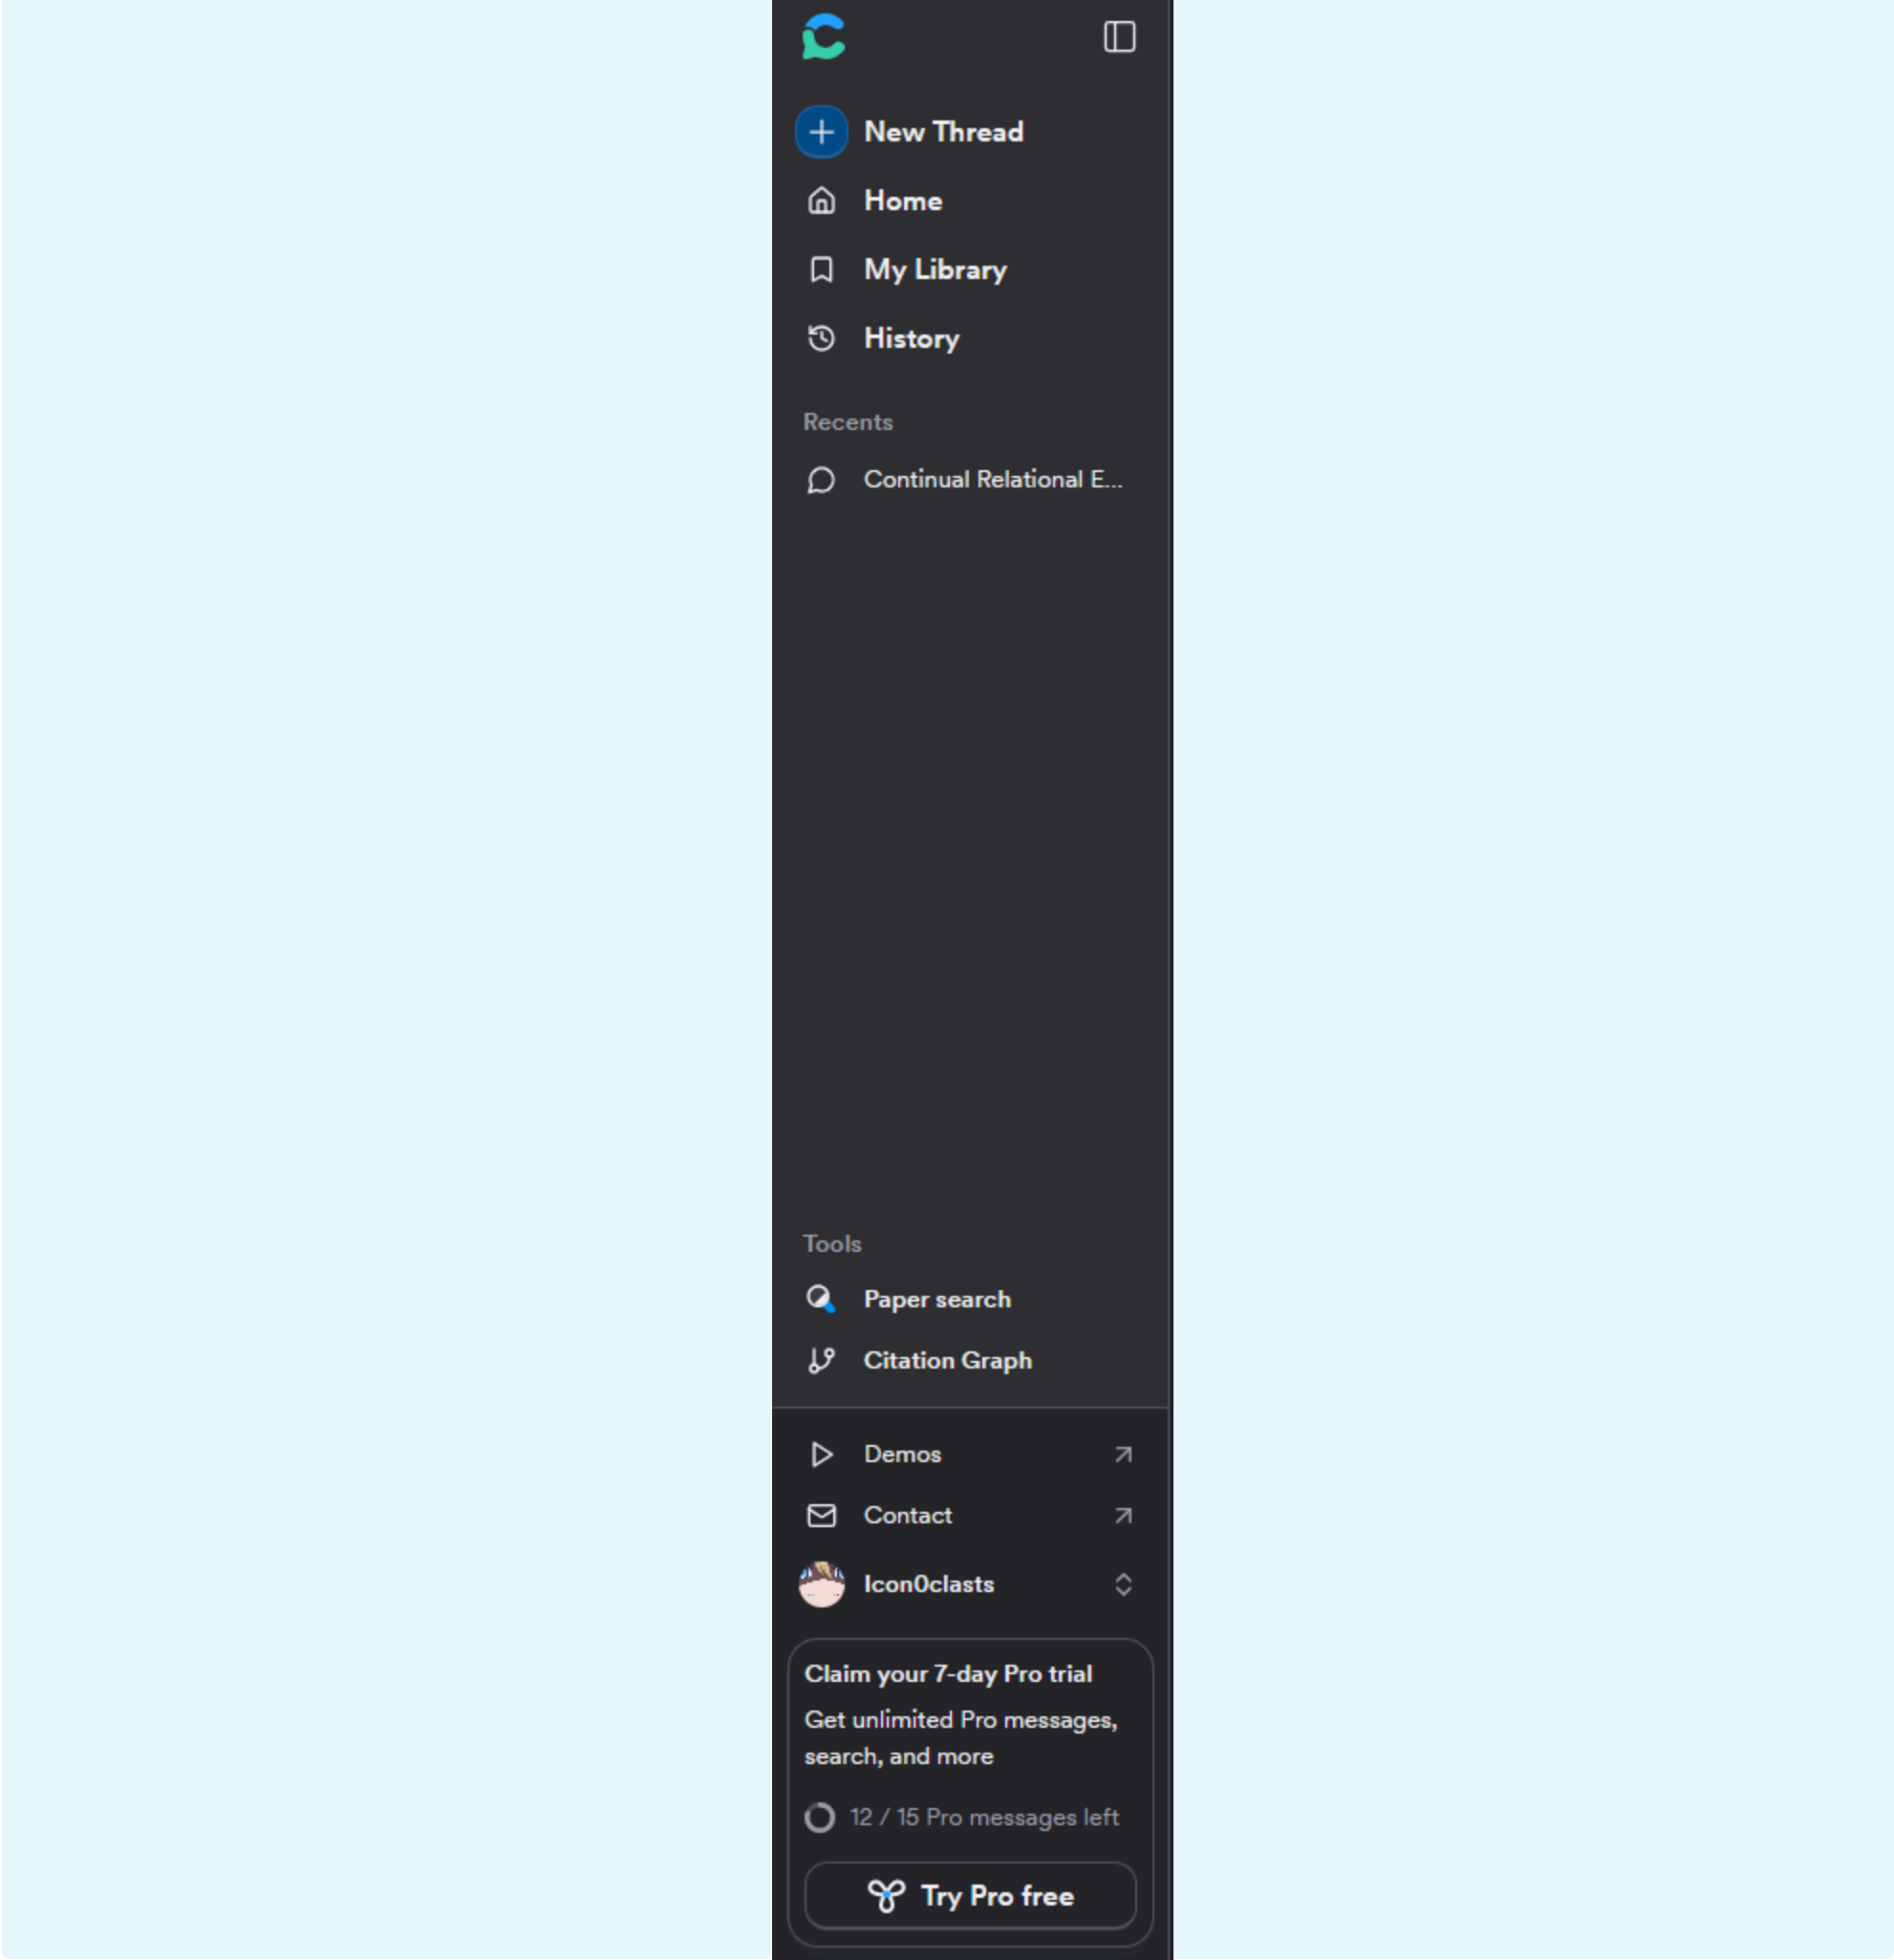

Scispace - Feature rich sidebar

-  **Comment:** no demo video in the sidebar bc the Web is already easy to use.

Concensus - Minimal Sidebar

- @ Comment: A bit complex for Beginer so they have demo video at the bottom (Brilliant)

Use Case Page + Research Workflow Gallary Store Research Usecase and Workflow

-> Could develop into a Marketplace
